(54) Title: COMPOSITE VESSEL CONSTRUCTION FOR COSMETIC PRODUCTS

(57) Abstract: A composite vessel construction (1), specifically designed for cosmetic products, characterized in that it comprises an inner body (2), adapted to form the vessel body, and an outer body (3), having a configuration different from that of the inner body (2), the inner (2) and outer (3) bodies being embedded into one another during the molding of the construction (1). The outer body (3) is applied to the inner body (2) by co-molding.
